A photograph showing a lush green artificial grass lawn. In the center, there is a wooden-framed chair with a glass seat and four cream-colored square cushions. To the left and right of the chair are some green artificial plants. The scene is set outdoors.

ARTIFICIAL GRASS & PLANTS

Early morning walking on grass gives a soothing experience. Also, the greenery of the grass is so alluring and attractive in nature. It is not possible to go to gardens every day but, there is an option that you can get the product by Artificial Grass BABA Associates for your home. BABA Associates is based in Kanpur and specialize in artificial flowers of a wide variety ranging from artificial flowers, stems, plants, pots, Christmas trees and much more,

A photograph showing several long, rectangular boards of WPC (Wood Plastic Composite) material. The boards are arranged in a fan-like pattern, showing different colors and textures: dark brown, medium brown, light brown, and a yellowish-brown. The boards have a wood-grain-like texture.

WPC PVC BOARD

This new material had the appearance and qualities of the rarest species of wood while offering a truly eco friendly alternative, and met with instant success. The extremely demanding Indian market was won over by the quality and exceptional lifespan of this product, which followed the tradition of, respect for, and love of, nature. Wood Plastic Composite material is widely available today in India, where it holds a Major market share in architectural landscaping in the public and private construction sectors.
